Management 3300, Fall 2018

- Jordon Eskijian completed an honors by contract project for Management 3300, her project involved organizing several seminars focused on the impact of social media on individuals and our society. Her first seminar on Social Media Addiction was fascinating and sparked a lot of interesting conversation and reflection. Ms. Eskijian structured the seminar with activities, discussion and steered the conversation. I was impressed as the majority of the attendees were adults or faculty members. Her second seminar "The Effect of Social Media on Body Image" was attended by over 100 people.
