

Authentic Issues Stimulate Teacher Growth on Technology as They Impact Student Learning

Speaker: **Monica Coughan**, Director of Community Connections, Center for Interactive Learning & Collaboration, Indianapolis, IN

Room: Bern

In this session, participants will learn about a program that creates a collaborative learning partnership between schools, businesses and community groups as they tackle current community issues involving traffic infrastructure, brownfields, public transportation, environmental issues and issues pertinent to creating Livable Communities. Attendees of this session will receive examples of a variety of these programs, how multiple uses of technology create a collaborative learning community, and a summary of research results gathered over the last four years supporting student and teacher growth.

DISTANCE MAKES NO DIFFERENCE: "Showcase of Videoconferences with the Lindbergh School District"

Speaker: **Cindy Lane**, Professional Development Specialist, Lindbergh School District, St. Louis, MO

Room: Lugano

This session will give you an idea of how successful videoconferences can be in the K-12 arena. Learn how the concept of videoconferencing is embraced by various educators and then taken forward to produce a successful video-conference adventure.

Coming Next: Live Class on IP Desktops!

Speaker: **Roy Jenkins**, Graduate Student Intern, Academic Development Center, Southwest Missouri State University, Springfield, MO

Room: Alpine I

Participants will explore the latest entrees into the arena of online communications platforms for educational use and discuss the implications that these new tools will have on pedagogy and the learner experience. Some attention will be given to other uses, such as symposiums, meetings, and informal collaborative communications in place of the telephone on campuses and possibilities for development of virtual campuses with live communications on demand.

Designing & Developing Interactive Instructional Concepts

Speaker: **Darla Runyon**, Assistant Director/Curriculum Specialist-CITE, **Roger Von Holzen**, Director-CITE, Northwest Missouri State University, Maryville, MO;

Andrew White, Director Educational Technologies, University of Missouri-Columbia, Columbia, MO

Room: Alpine II

Online teaching has sparked new teaching strategies for faculty to incorporate, whether in campus-based, web-augmented, or online courses. One of the most effective and significant of these new techniques is the integration of instructional concepts. This presentation will provide a detailed discussion of the process, tools and techniques used to design and develop interactive, web-based instructional concepts that illustrate critical course content. Examples of instructional concepts and how they are integrated into a course will be shown as well.

Deterrence and Detection of Cyber-plagiarism

Speaker: **Patricia Elder Cearley**, Professor-English and Technical Writing, South Plains College, Levelland, TX

Room: Davos

This session will begin with a definition of plagiarism. Then information will be given that helps teachers deter student plagiarism (detailed information on plagiarism, examples, possible consequences, etc.) In addition, various ways that students plagiarize from the Internet and how teachers can track down plagiarism (various types of detection software, search engines, etc.) will be shown. All participants will receive three sets of handouts: (1) PowerPoint handout, (2) handout on detection software, and (3) handout on plagiarism examples.

Breakout Sessions

Friday July 18 - 2:15 – 3:00 p.m.

Lessons From Ten Years of I-TV

Speaker: **J. Scott Christianson**, Owner, Kaleidoscope Consulting, Columbia, MO

Room: St. Moritz

Attend and hear a brief history of I-TV in Missouri from the first K12 consortiums in 1993 to the present day, with an emphasis on some of the challenges that still remain. Other topics will include: the growth of I-TV in Missouri and the changes in I-TV technology; funding for I-TV; the technical support structures for I-TV systems and networks; the migration of H.323 technology; and the development of "blended" approaches to I-TV and distance education.

First Responders, Town Meetings and All That Jazz

Speaker: **Keith Crumley**, Jefferson City TCRC, TCRC Coordinator, Jefferson City, MO

Room: Bern

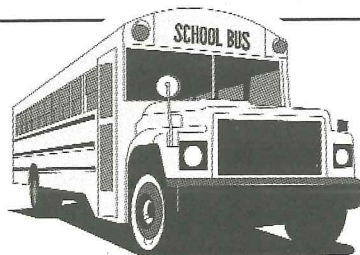

Learn and discuss real world events that have occurred in support of the concept and the scope of the existing capability available state and nationwide. We will share the out-of-the box test of content delivery, e.g. statewide auditions for All-State Show Choir. Also, learn about the blending of existing technologies to support ad hoc events and their relation to the emergency network for state and federal support of the network.

TeleKidcare: Using Telemedicine to Bring Healthcare to School

Speaker: **Deborah L. Swirczynski**, MA, Project Manager, Center for Telemedicine & Telehealth University of Kansas Medical Center, Kansas City, KS

Room: Lugano

This presentation will describe the implementation and adoption of the innovation in USD 500. During the past three years, TeleKidcare® has been implemented in other communities throughout the state of Kansas. Funding, sustainability, reimbursement, and other issues will be addressed.

C-SPAN School Bus

Come visit the C-SPAN School Bus, a 45-foot motor coach with a mobile television production studio! Each bus is staffed with C-SPAN personnel who talk about C-SPAN's mission as well as media literacy and their unbiased coverage of the House and Senate. Located outside the front entrance on the Northeast parking lot.
